

# NATE GROWER

Patuxent Music

BY CHARLIE HALL

This is the first project by award-winning fiddle player Nate Grower who was introduced to bluegrass music at a very early age when a gospel bluegrass band performed at his school in Western New York. He has a very

diverse style that runs from Texas swing to old-time to progressive and traditional bluegrass. There are 14 tracks here and Nate contributes three

instrumentals. *New Fall Reel*, the opening track, and *Burning Well* have a progressive feel; *Cedarwood* is slow and very enjoyable. Tom Mindte is the lead vocalist and does an excellent job on *Why Did You Wander* and *I've Just Seen The Rock Of Ages*. Nate has enlisted some great talent to come up with a recording that is first class and a must-have project. Some of the other songs included here are *Big Sciota*, *Fire On The Mountain*, *Grey Eagle*, *Uptown Blues*, *Kansas City Kitty*, *Cherry River Line*, *Leon Kennington Waltz*, *Whistling Rufus*. **BMP**
