

Just had to let you know how much I enjoyed your debut fiddle project. From the time it started with "The Old Brown County Barn", until the last note of "Dry and Dusty" I was captivated by your playing. From the moment your project started it was pure pleasure for the next 40+ minutes. Your high octane playing really got my bluegrass juices flowing. I played your project numerous times, & I loved it more each time I played it. I can't wait to share it with my listeners. I will be playing "The Old Brown County Barn", "Wheel Hoss", & "Panhandle Country" to open my show. I know this cd will be by traveling buddy for many months to come!
