

CD

LEON MORRIS

THINKING TODAY OF MY HOME

COMMENTS

After listening to the first song on this project you know this cd is something very special. Leon's sound takes you back to the 1950's when bluegrass had a different sound than it does today. His voice is soft & silky, & flows along from song to song. Whether he was singing some fine old gospel songs, great traditional songs, or fine instrumental versions of "Golden Slippers", and "Welcome to New York", you just didn't want this project to end. There are very few bluegrass singers who can hold a candle to Leon Morris. He is one of the best!! I know my listeners will feel the same way.

Thank you for sharing this fine project with us.

Cordially,

Al Shusterman
