Dear Tom:

Enclosed is a review of the cd that you sent to me.

CD
Last Chance
RUSS CARSON

COMMENTS

This project has "Home Run" written all over it!! From the start of "I Feel The Blues Movin' In" until the last note of "Squirrel Hunters", Russ Carson & his band mates take us through almost 43 min. of hard driving bluegrass music. Through it all Russ incorporates several of different styles of playing giving us a look into his musical capabilities. I loved everything about this project!! I heard Russ before, so I knew what to expect. On this project he took it to another higher level. The song selection was superb. I couldn't have picked it any better. Special shout outs go to his band mates, Brandon Rickman, Jeff Parker, Gold Heart, & that great bass break on Shenandoah Breakdown by Marshall Wilborn. This project is a sure fire winner. It get played until it wears out!

Thank you for sharing this fine project with us,

Cordially,

Al Shusterman
